Champion-Carmangay In Front Ranks With Victory Loan

Champion-Carmangay Unit of the Victory Loan of 1941 can be proud of the part it is playing in the drive to provide "The Tools to Finish the Job." At the time of going to press the amount subscribed is \$76,800. This is beyond expectation, but co-operation and a willingness to see the job well done can do big things.

Champion headquarters for the unit now flies 5 pennants and awaits the arrival of the 6th—one for quota and one for each 25 per cent over quota—Let's make it 8.

We shall not fail them—the British people in their unconquerable stand against a despotic power who is seeking to end for all free-born people, human liberty and justice, and with the instruments of war and the slavers lash, seeks to bring us back to the Dark Ages and obliterate our liberty and abolish our way of life.

Canadian Pacific Builds First Canadian Tank

It was a proud day for the Canadian Pacific Railway's Angus Shops at Montreal when D. C. Coleman, vice-president, announced to a gathering of Government officials, company officers, workers and newspaper men that he had great pleasure in delivering the first Canadian-built tank to the Canadian Army. "The machine," he said, "is the child of sweat and tears. It will be followed by hundreds and thousands of others to help the Empire to its victory."

The tank was gratefully accept-

ed by the Hon. C. D. Howe, Minister of Munitions and Supply, who praised Mr. Coleman, H. B. Bowen, chief of motive power and rolling stock, and other Canadian Pacific men for the effort they had put into building this splendid war machine. He, in turn, gave the tank and all others to come off the Angus assembly line to the Hon. J. L. Ralston, Minister of National Defence, who thanked the Canadian Pacific workers for the fine job they had accomplished. "You men have put

your whole heart into this job," he said. He also mentioned that 300 of the thousands of tanks being made at the Angus Shops were being produced for the British Purchasing Commission.

The pictures above show Mr. Coleman officially delivering the first tank to the Department of Munitions and Supply and, inset, Corp. Colin Stirton, of the Royal Tank Regiment, a veteran of Dunkirk, complimenting an Angus worker on the construction of the tank.

the British people, or blind their eyes, or bluff their minds. They see the alternative to resistance clearly before them. And although the price they are asked to pay is hard and heavy, they would rather part with the last few sticks of house and home, the last drop of blood, in a land impoverished for generations, than have for their ruler in a free and lovely land the mad tyrant whose record is such that death would be preferable to submission to him.

Continue then to do your bit until the last battle is fought and won and we shall continue to be a free people.

WAR SAVINGS AS INSURANCE

Busy as she is in a life or death struggle, England is not overlooking her economic future as she goes "all out" to thwart the vicious ambition of Hitler. Her citizens have been, and are, storing up a staggering total of war savings against the day when the last shot is fired and millions of Englishmen must turn around and readjust themselves to peaceful occupa-

tions. Nor is that all. Just recently, the British government has imposed income taxes on very low wages and salaries, which are to be restored to the workers after the war is over.

Shrewd Canadians will see in this savings program a worthy example to be followed in their country. The wise citizen will not only measure the amount of his purchase of war savings certificates in terms of what that money means in helping our government to fight this war, but in terms of insurance

for himself and his family.

The man who asks himself, "How much cash am I going to need after this war is over?" is going to buy as many War Savings Certificates as his income permits. More than that he will then see more concrete reasons for doing without some of the pleasures and other luxuries in which he now indulges.

There certainly is a rainy day coming.

our way of life!

DOWN THROUGH THE AGES

Britons fought and suffered and died in order that their children and their children's children might be free. Today the forces of darkness threaten to engulf us once more. Shall we give up those rights which our forefathers won?

Today our country must arm. No time can be lost. We must build the greatest war machine the world has ever known. We must accomplish in two years more than the enemy has accomplished in seven.

That is why Canada needs your savings—not as a gift, but only as a loan. Canada's army must be maintained and equipped with the most modern fighting machines. Scores of warships and merchant vessels must be built. Thousands of planes, thousands of pilots must be rushed to the scene of conflict.

So Canada needs the use of your money now. Later on, Canada will repay you in full. In the meantime, you will receive regular interest on your loan.

When you buy Victory Bonds, all Canada is your security. These Bonds are more readily turned into cash than any other.

HOW TO BUY—Give your order to the canvasser who calls on you. Or place it in the hands of any branch of any bank, or give it to any trust company. Or send it to your local Victory Loan Headquarters. Bonds may be bought in denominations of \$50, \$100, \$500, \$1,000 and larger. Canvasser, bank, trust company or your local Victory Loan Headquarters will be glad to give you every assistance in making out your order form.
